Love Karolina

KAROLINA
BY KAROLINA KURKOVA

Pure lightness, vibrant energy

The second fragrance created by Karolina Kurkova reflects all facets of her versatile personality. Just like the sun, the top model is surrounded by a fascinating aura of feathery inspiration and vivid energy. Fresh green meets pink pepper, rose meets delicate violet, vanilla meets sandalwood. The essence: A fragrance with a delicate floral note, as inspiring as the first rays of morning sunlight.

CAUSE

What are the causes for premature hair loss?

- Hormone Dihydrotestosterone (DHT) is an indirect cause of the degeneration of the hair root
- Inadequate supply of blood circulating to the hair root can lead to lack of nutrients needed in the root of the hair
- Poor strength in the hair structure can also be a factor in the health of the hair root with the possibility of hair loss resulting.

ACTION

How is L-Recapin effective against the cause of premature hair loss?

The innovative and specialized complex activ^e ingredient Procapil[®] works three fold:

- Oleanol acid from the olive tree leaves helps to reduce the degeneration of the hair root
- Apigenin from the citrus fruits helps promote and stimulate the blood circulation of the root of the hair (see page 1)
- Biotinyl-GHK (a protein vitamin) helps to promote the strength of the root of the hair! (see page 2)

EFFECT

Is the effectiveness of L-Recapin tested in any studies?

Yes. A study with an period of application over 4 months carried out*.

The results:

- L-Recapin helps to reduce premature hair loss
- With the application of L-Recapin the hair stays in the growth phase longer
- L-Recapin contributes to the essential binding of the hair root and can help to reduce premature hair loss
- Through the L-Recapin complex active ingredients the hair root is protected, strengthened and regenerated

Certified Effectiveness:

*Study Tonic

- **76%** of those who participated in the study claimed that they noticed better hair volume and that their hair remained in the natural growth phases longer
- **76%** confirmed the effectiveness of the product.

Tonic was tested on 20 men and 5 women in the age group 21 to 60 years of age through the DermaTrenier over a period of 4 months in 2005)
